

Intramural form of study

Faculty of economics

Bachelor degree (4 years of study)

Economics - **128 000** rubles per year

Management - **148 000** rubles per year

Master degree (2 years of study)

Economics - **138 000** rubles per year

Postgraduate training program (3 years of study):

Regional and sectorial economics - **178 700** per year

Technological faculty

Bachelor degree (4 years of study)

Food products of animal origin - **148 000** rubles per year

Technological machines and equipment - **148 000** rubles per year

Standardization and metrology - **148 000** rubles per year

Master degree (2 years of study)

Food products of animal origin - **158 000** rubles per year

Technological machines and equipment - **158 000** rubles per year

Standardization and metrology - **158 000** rubles per year

Postgraduate training programs (3 years of study):

Food systems - **185 300** rubles per year

Technologies, machines and equipment for agro-industrial complex - **185 300** rubles per year

Engineering faculty

Bachelor degree (4 years of study)

Agroengineering - **148 000** rubles per year

Master degree (2 years of study)

Agroengineering - **158 000** rubles per year

Postgraduate training program (3 years of study):

Technologies, machines and equipment for agro-industrial complex - **185 300** rubles per year

Faculty of veterinary medicine and biotechnologies

Specialist degree (5 years of study)

Veterinary - **148 000** rubles per year

Bachelor degree (4 years of study)

Veterinary sanitary examination - **148 000** rubles per year

Zootechnics (animal science) - **148 000** rubles per year

Water bio-resources and aquaculture - **148 000** rubles per year

Technology of production and processing of agricultural products - **148 000** rubles per year

Master degree (2 years of study)

Zootechnics (animal science) - **158 000** rubles per year

Postgraduate training programs (3 years of study):

Animal pathology, morphology, physiology, pharmacology and toxicology - **185 300** rubles per year

Contagious diseases and immunology of animals - **185 300** rubles per year

Small animal science, feeding, technologies of fodder preparation and animal products production- **185 300** rubles per year

Breeding, genetics, selection and biotechnology of animals - **185 300** rubles per year

Faculty of agronomy and forestry

Bachelor degree (4 years of study)

Agronomy - **148 000** rubles per year

Horticulture - **148 000** rubles per year

Forestry - **148 000** rubles per year

Technologies of logging and woodworking industry - **148 000** rubles per year

Master degree (2 years of study)

Agronomy - **158 000** rubles per year

Forestry - **158 000** rubles per year

Postgraduate training programs (4 years of study):

General agriculture and crop production - **185 300** rubles per year

Forestry, forestry, forest crops, agroforestry, landscaping, forest pyrology and taxation - **185 300** rubles per year
